8260APM	<p>8260A DSP Three-way Monitor System.</p> <p>The Genelec 8260A 3-way DSP system is a masterpiece in electro-acoustic design which features major advances in audio driver technology integrated to a sophisticated enclosure design. Genelec MDC™ Minimum Diffraction Coaxial Mid/High driver technology takes a big step in perfecting audio quality in professional active studio monitors. This breakthrough in coaxial driver design provides more accurate imaging and improved sound quality both on the acoustical axis as well as off-axis. The extremely smooth frequency response leads to outstanding clarity and definition of the inner details of the music. The 8260A combines, for the first time, a coaxial driver (MDC™) with a modern waveguide technology (DCW™), ensuring drivers to couple coherently over their full operating bandwidth, as well as creating coincident mid-frequency/high frequency point source.
