Exchange customers will first and foremost enjoy the benefits of more versatile interfaces, which offer more extensive I/O capabilities and support for up to 96 kHz sample rates for high-definition recording. In addition, exchange customers will receive the most recent version of Pro Tools LE 8 software.

The **Digidesign® Music Production Toolkit 2** includes a full range of professional music tools that expand the creative power of your Pro Tools LE or Pro Tools M-Powered system. It includes the following items:

- Digidesign Hybrid high-definition synthesizer
- TL Space Native Edition convolution reverb
- Smack! LE compressor
- Eleven LE guitar amp and speakers
- Structure LE sampler
- Multi-track Beat Detective rhythm analysis and correction tool
- Up to 64 mono or stereo tracks at up to 96 kHz
- Pro Tools MP3 Option
